

USGA TM Importing Course details from the USGA Course Rating Database

After a long wait, USGA Tournament Management powered by Golf Genius has added the ability to import course details from the USGA Course Rating Database. It is important that all your courses are updated from the USGA Course Rating Database so they are compliant with the new WHS standards. This will also post your scores to the proper course on GHIN and will allow your scores to factor in to a potential Playing Conditions Calculation.

To begin you need to access your accounts "Course Details" page.

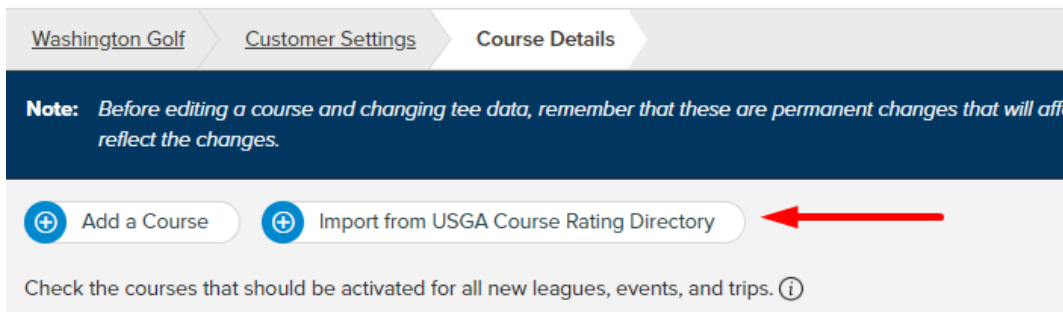

If you are in your "Customer Center" click on the "Customer Settings" menu then "Course Details".

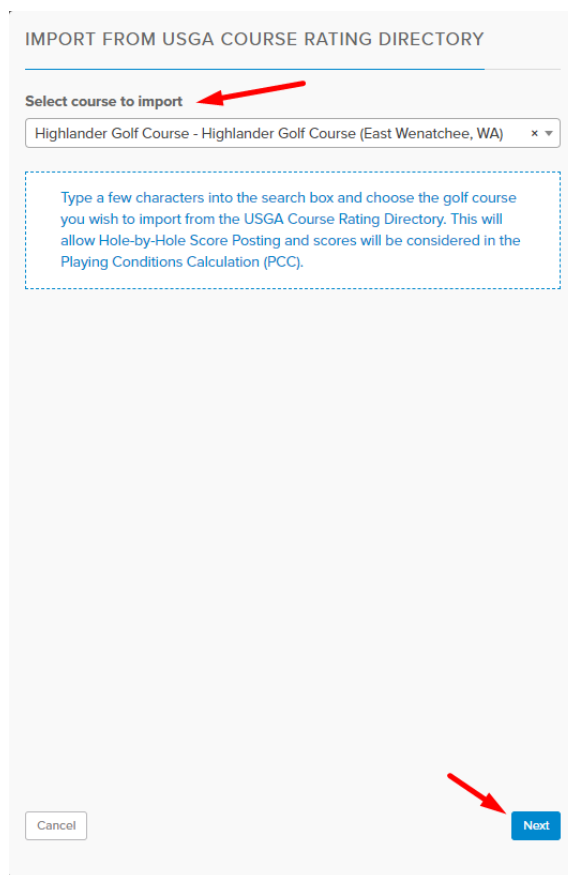

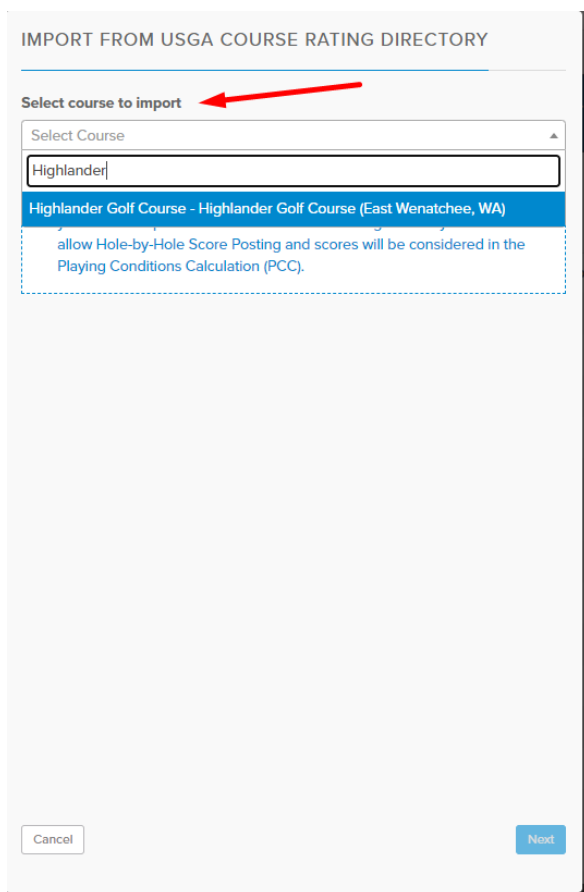

If you are in an Event or League click on the "Event" or "League" menu then "Course Details".

The screenshot displays the USGA Tournament Management Association interface. At the top left is the USGA logo. The top navigation bar includes 'EVENT', 'GOLFERS', 'CALENDAR', 'ROUNDS', and 'APPS'. Below this is a breadcrumb trail: 'Washington Golf' > 'WA Golf Casual Golf Day - Tumble Creek Cl...' > 'Event' > 'Event Dashboard'. A red arrow points to the 'EVENT' menu item. The main content area is divided into two columns. The left column is titled 'EVENT ADMINISTRATION' and contains a list of options: 'Event Profile', 'Course Details' (highlighted with a red arrow), 'Custom Fields', 'Event Payment Center', 'Registration Form', 'Registration Payments', 'Invitation List', and 'Registration is closed. Open'. The right column is titled 'MULTI-ROUND TOOLS' and contains: 'Multi-Round Series', 'Round Robin Schedule', 'Bracket Tournaments', 'Multi-Round Tournaments', 'Wave Pairings', and 'Event Standings'. Below this is a section titled 'PERSONALIZE YOUR EVENT' with options: 'Logos, Banners & Backgrounds', 'Photo Gallery', 'Event Talk', 'Manager Forum', and 'Event Dashboard'.

Once in the Course Details page, click on the "Import from USGA Course Rating Directory" button at the top.

The importing box will come up and you can search for the course you want to add. In this example I searched for Highlander GC in Wenatchee. You will see a drop down list will display with the search results and you can select the correct course.

After a course has been selected click "Next" button at the bottom to continue on with the process.

If the course you are adding is NOT currently in your course details list click import at the bottom.

IMPORT FROM USGA COURSE RATING DIRECTORY

When importing information from the USGA Course Rating Directory, it will include Tee Set information with Course Rating, Slope Rating, Yardage, Par, Stroke Index (if available), and Gender.

Do you want to copy course information from existing course?

Copy data from existing course

The system will then pull over the data and display the details for the new course. To confirm the course details were imported correctly, look for "WHS Compliant" highlighted in green to the right of the course name and "Imported from CRD" under the individual tee details.

Washington Golf Customer Settings Course Details Edit Highlander Golf Course

Note: A quick reminder to set up your course and tee abbreviations. The abbreviation can be used on reports such as the page composer, tee sheet and alpha list.

Course Name: Highlander Golf Course Abbreviation: Tee time interval: **WHS Compliant**

Green Depth / Hole Labels / Shotgun Priority / Pace of Play Parameters
Default Tee by Gender

Tee: Black - Men Rating: 35.4 / 33.0 / 68.4 Slope: 130 / 116 / 123 Total Par: 70

Tee: Black - Men **Imported from CRD** Abbreviation: 18 Hole Rating: 68.4 18 Hole Slope: 123

Color: Choose color to color code the yardage line on printed scorecards. Gender: Male Female

Rating and Slope for Front and Back is optional for 18 holes courses:

Front 9 Rating: 25.4 Front 9 Slope: 130 Back 9 Rating: 23.0 Back 9 Slope: 116

	1	2	3	4	5	6	7	8	9	Out	10	11	12	13	14	15	16	17	18	In	Totals
Yardage	418	358	166	535	496	393	156	507	163	3192	344	429	158	522	198	335	309	247	165	2707	5899
Par	4	4	3	5	5	4	3	5	3	36	4	4	3	5	3	4	4	4	3	34	70
Handicap	3	11	15	1	7	9	17	5	13		8	2	16	4	10	12	14	6	18		

If the course you are adding is already in your course details page you can select the current course and the import function can overwrite and then archive the old course.
